

# Tailwinds Distilling Co.

## Talking Points

- **Quality Raw Materials**  
Taildragger starts with using first boil Cane Molasses from multiple parishes in Louisiana.
- **Smooth Taste**  
A multifaceted Complex spirit with rich Vanilla, Butterscotch, and Tropical Fruit notes.
- **Careful Distillation**  
Distillations made at 180 proof and broken apart to take only the premium cut of ethanol.
- **Standalone & Stand Out**  
Amazingly smooth by itself but also pairs perfectly with your favorite mixer.

## The Award Winning Taildragger Rum.

Tailwinds set out to create well-balanced world class quality rum. Taildragger White Rum was the first production Rum from Tailwinds Distilling & has captured multiple awards in international tasting competitions. Tailwinds award winning rum starts with a first boil cane molasses which has a higher sugar & mineral content than the blackstrap molasses used by most rum distilleries. This along with the distillation process produces a very smooth yet multifaceted spirit with a nose of an Agricole Rum followed by the taste of sweet butterscotch, vanilla, and tropical fruit. By not charcoal filtering Taildragger White Rum, Tailwinds leaves in these bold flavors that stand out in a mixed drink. Taildragger Amber Rum is aged in carefully selected American Oak barrels previously used for American Rye Whiskey for a minimum of one year. Tailwinds offers a Coffee Flavored Rum that has changed the way many consumers view flavored Rums. Tailwinds Distilling has created a bold and unapologetic brand of American Rum.
