

100% Blue Agave Spirit

Talking Points

Emerging Market

- The craft Blue Agave Spirits is a new market in which Tailwinds is a Trailblazer.

Smooth Taste

- Careful Distillation creates an unparalleled smooth spirit never before seen in the world of Tequila.

Organic Blue Agave

Our Process starts with organic 100% Weber Blue Agave from Guadalajara, Mexico.

Barrel Release

A barrel of Tailwinds 100% Blue Agave is released every 6 Months creating a high demand for this hard to get spirit.

Tailwinds 100% Blue Agave Spirit, is one of the first of its kind in the United States to actually be distilled on American Soil. Distilled only from organically grown Weber Blue Agave Nectar that is sourced from the Northern hills of Guadalajara, Mexico. Handcrafted in small batches from a pot/column still, Tailwinds follows traditional methods that have been used for hundreds of years, but we distill our Agave Spirit to a slightly higher proof than most Tequilas. The result is an ultra-smooth Agave Spirit with a full flavor that rivals any Tequila currently in market. A Barreling program for our agave utilizes spent Bourbon Barrels. Adding a sweet finish to an already smooth spirit, the Agave Spirits rest on American Oak Buffalo Trace Bourbon barrels for a minimum of fourteen months.
